

AI-native systems. Human-owned decisions.

GOVERNANCE · DEFENSIVE · OFFENSIVE · SUSTAINMENT · SYSTEMS INTEGRATION

FLAGSHIP SOLUTIONS

01 Secure Modernization

Rationalize and modernize portfolios, cloud foundations, identities, and integrations through modular components and open interfaces.

- MOSA and vendor-neutral target architecture
- Zero Trust, DevSecOps, controls, and transition evidence

02 Trusted AI and Agentic Systems

Move from use case to bounded, testable software agents with accountable authority, human intervention, evaluation, monitoring, and rollback.

- AI governance, TEVV, HITL, orchestration, and custom workflows
- Autonomy authority baseline and decision trace

03 Operational Data and Logistics

Connect enterprise data, logistics workflows, and decision tools into an operational picture leaders and operators can use.

- ERP, data, integration, and custom applications
- Program management, adoption, and vendor-neutral scale path

SELECTED DELIVERY EXPERIENCE

- **Principal-led subcontract delivery:** SAP application security, role design, consolidation, and modernization in public-sector, higher-education, and regulated commercial environments.
- **Capital-markets engineering through prime-vendor channels:** kdb+/q, tick data, market feeds, migration, regulatory reporting, and 24x7 production support for global financial institutions.
- **Product and data-platform delivery through prime-vendor channels:** product ownership, Snowflake, Salesforce, Airflow, Kafka, MuleSoft, Python, CI/CD, and secure data controls.

EVIDENCE STANDARD

Performed scope is stated without claiming ownership of a prime contractor's award.

Every engagement should leave a baseline, decision record, control evidence, measurable acceptance criteria, and transition path.

FEDERAL ACQUISITION

CONTRACT 47QTCA25D0063	CURRENT CONTRACT PERIOD Mar 7, 2025 - Mar 6, 2030
POTENTIAL TERM IF ALL OPTIONS ARE EXERCISED Through Mar 6, 2045	DESIGNATION SDVOSB · small business
STATE SUPPLIER NC HUB / SWUC · SBE	SINS 54151S / OLM
UEI PL29J4SVJMB9	CAGE 9AEG0
PRIMARY NAICS 541519	ACCESSIBILITY Evaluation status available

1. Direct GSA order
2. GSA eBuy RFQ
3. Prime subcontract or teaming

REGISTERED SECONDARY NAICS

541511	541512	541513	541611	541612	541618
541620	541690	561110	561499	611430	

PLATFORMS AND DISCIPLINES

Enterprise: Palantir, SAP, Salesforce, custom applications

Data: Databricks, Qlik, kdb+, Snowflake

Cloud: AWS, Azure, Google Cloud, multicloud

Delivery: DevSecOps, AIOps, FinOps, AI FinOps, program management, portfolio rationalization

Architecture: MOSA, open interfaces, best-fit components, practical exit paths

OPERATING ENVIRONMENTS

DoD and national security · Federal civilian · Logistics and supply chain · Financial systems · Pharmaceuticals and biosciences · State and local government

Platform names describe experience and architectural fluency and do not imply partnership, certification, or endorsement unless expressly stated. Verify current contract, registration, and certification details against the applicable official record for each acquisition.

Bring us the hard problem.
